WELCOME TO LEGO® ART

Crafting your own wall art may be a passion that fascinates you, or the promise of an immersive, creative journey you long to explore. Now you can build a trip down all the memory lanes you've travelled on your own adventures or find space for new dream destinations. The accompanying soundtrack is curated to celebrate the diversity, beauty and cultures of our world. Listen as you build at your own pace. Relax and reconnect with your creative side. Create something you'll love and give your living space a touch of adventure.

An artful celebration of our world

How do you create an artful world map that looks realistic, yet has a unique, creative twist? LEGO® Art Design Manager Fiorella Groves started with rough, digital visualisations resembling actual maps with borders and topographic representations.

"But this is LEGO Art. I wanted to see how far we could take it. This is the creative freedom we have as designers when we build with LEGO bricks – we can play with the norms. So, we removed all man-made borders and created the land masses in a super simple, yet powerful design with a cast shadow effect. With the oceans as negative space, the land masses really pop on a vibrant background of – literally – oceans of joyful colours. We experimented with dozens of test versions until we found a beautifully balanced palette that lets you build a bathymetric version of the oceans whilst being versatile enough to create endless, fun, alternative iterations."
– Fiorella Groves.

Bring your world to life

Where we come from, the places we settle, where our hearts belong, those places become the centres of our world. If you love travelling, you know world maps look different depending on where in the world you are. We wanted you to have the creative freedom to change your perspective on your world map and arrange the 3 sections, America, Europe and Africa, and Asia and Australia, so your part of the world is at the centre.

Combination A – Europe and Africa in the centre.

Combination B – America in the centre.

Combination C – Asia and Australia in the centre.

Combination A
- Europe and Africa in the centre.

Combination B
- America in the centre.

Combination C
- Asia and Australia in the centre.

1 world – 3 combinations

Your world map consists of 3 main sections
- America, Europe and Africa, and Asia and Australia – which you complete separately. In your kit, you will find connector pins to assemble the 3 sections into a combined work of art, with your favourite part of the world in the centre.

Mark your world

Use the cone elements and up to 4 different coloured round tiles to build markers that represent your journeys. Or you can get creative and invent your own markers. Pin as many as you like to your map to highlight the places that mean the world to you: where you were born, have lived, travelled, or dream of going.

Customise the oceans

Your work of art is not only a static map you can hang on your wall. It's also a creative tool kit that lets you combine the beautiful, familiar logic of maps with your own creative ideas. Because your imagination has no borders, either. Once you have completed the land masses with the white and dark blue tiles, you can reconfigure the oceans with your own personal mosaics of colours and turn your map into a living, dynamic art piece. Create flags, symbols, your initials, patterns, or let a dice roll decide what colour to use next. Build alone or invite your family or travel buddies to leave their creative mark on your world. It's your artwork, your way.

INSPIRATION

Customise the oceans

Get ready to build

Create a quiet space for yourself, start the soundtrack and find your own rhythm as you build. Tips: Organise your colour palette and sort your tiles first to keep track of the numbers and colours you choose. The LEGO® Art brick separator and hanging hook make rebuilding easy when you want to refresh and update your display.
