1

Diagram 1 shows the front of the handle (labeled 3) being attached to the trigger gun. A red arrow indicates the connection point.

2

This diagram shows the second step of assembly. A 1x4 Technic beam is being attached to the side of the 1x6 Technic beam. Red arrows indicate the alignment of the holes. The 1x4 beam is positioned such that its holes align with the side holes of the 1x6 beam.

Diagram 3 shows the chassis with the front and rear axles attached. Red arrows indicate the direction of assembly for the axles, which are labeled with a circled '3'.

4

Diagram showing the gear being attached to the axle. A red arrow points to the gear, and a blue circle with the number 4 is at the bottom.

5

This step shows the assembly of a gear mechanism. A 1x6 Technic beam with a grey pin inserted into its first hole is being attached to a larger gear assembly. A black arrow points from the beam to the gear. An inset image on the right shows the beam being lowered into place, with a red arrow indicating the direction of movement.
