

Jump aboard for a new LEGO® play experience

Exciting new way to play with LEGO® toys by combining a LEGO model with a game app for an augmented-reality (AR) experience.

A playset filled with ghost-hunting action

This model reveals a ghostly digital world when viewed with a smart device equipped with the free LEGO® Hidden Side AR app.

LEGO® Hidden Side Jack's Beach Buggy

Join friends in a digital realm

Interacting with the model makes things happen in the app.

Enjoyable building experience

The exciting digital play starts right after the fun build.

Take LEGO® play to a digital world

Get the free Hidden Side AR app for iOS and Android.

Digitally interactive model

Interacting with the model makes things happen in the app.

Epic boss battles await

Players get to take on powerful boss ghost Trucker Dale.

Hunt and collect ghosts

Expand your ghost collection for use in the game.

An awesome character lineup

Includes Jack, Parker and Scott Francis minifigures, plus a double possessed-head element and other cool accessories.
